# PRESENTATION SLIDES

### **Duration and number of slides**

When preparing your presentation, please take note of the time allocated to your presentation. In general, when trying to assess how many slides you will require for a time slot, 2-2.5 slides per minute is a reliable rule of thumb. A higher number of slides will invariably result in your lecture exceeding the allotted time

#### **Talk duration:**

٠	Keynote lectures:	45-50 minutes
•	Symposia (1h/2h):	25 minutes
•	Educational Workshops:	30 minutes
•	MTE:	15-20 minutes
•	Oral sessions (1h/2h) / One-hour case session:	10 minutes
٠	Mini-oral flash session:	4 minutes
٠	Virtual Walk through:	20 minutes (both for moderator and reviewer)
٠	Open Forum:	10 minutes
٠	Pipeline Corners:	5 minutes
٠	Special sessions:	

Late-breaking research from Clinical Microbiology and Infection journal: 20 minutes

20 minute

Late-breaking research from The Lancet group:

10 minutes

SCHID EUROPEAN SOCIETY OF CLINICAL MICROBIOLOGY AND INFECTIOUS DISEASES

#### Format

Presentation files will be accepted in .ppt and .pptx only

### Template

There is no mandatory template. If needed you can find some slides template here

### Ratio

The aspect ratio of your presentation must be 16:9.

### File name

To avoid any compatibility problems, please do not use special characters (e.g. «, Ö, Ø, ñ, ε, ®, ý, }, {, etc.) to name your file. Do not use passwords or encryption with your files.

### File size

The size of any given presentation should not exceed 500 MB.

#### <u>Back to Table of Contents</u>

#### Font

If you need to use special fonts, please make sure to supply us with the font at Speaker Ready Room and double check after uploading if everything looks as it should. Minimum recommended font size for easy viewing is 20 points.

#### Text

Your guiding principle should be "as much as necessary, as little as possible". The text should be concise and to the point, key facts should be highlighted. No more than five text lines should be used per page.

#### Colours

Colours should be used sparingly. Choose colour combinations that make your text easy to read (preferably dark background - light fonts; avoid red and green).

#### Layout

Keep your slides clean: avoid to add too much information, especially graphs and experimental data on one single slide. Ensure a logical order of the content. A clear and well-structured arrangement is the most attractive and easiest to view on screen.

#### Images

Images can be powerful if they are relevant and illustrate or compliment your content. Only use high quality, royalty free (or cited) images

For invited speakers & industry only

# THE DAY OF THE SESSION

### Best practices during the live

- Be at the same place and have the same equipment than during the training
- Check your session time based on your time zone
- Try to sit tigh and not move too much (To the sides but also towards your computer)
- → Please <u>never</u> turn off your camera
- Mute yourself when you are not talking
- Turn off your computer notifications and close all programs which are not used for the session
- Put your phone on silent mode

### Access to the waiting room

- We will send you a zoom link by email to join the waiting room
- We kindly ask you to connect to zoom 45 minutes before the beginning of your session
- A technical team will be there to welcome and help you
- This allocated time before the start is to prepare the template with camera and audio control and for the last technical check:
  - Sound check
  - Video and Light check
  - Light check
  - Check the internet bandwidth

Note: we ask you no to connect at the same time at the congress platform. It will disturb you with the sound and notifications.

Note: for technical purpose, once you are connected to zoom, please do not turn off your camera. We need to setup and fix the final template for live.

### **Before the start**

### Speakers, Chairman : you will go live !

The technical team will check with you the run of the session

- Chair(s) will introduce the session and can make transitions between each presentation
- Speaker: The technical team will display the slides and will give you the control of your presentation
- → After all presentations, chairs will drive the Q&A session
